

# IQ<sup>®</sup>

## FEATURES

- Increased Output Power
- Featuring IQ OHV 4-Stroke Engine
- Featuring New Developed Square Cove AVR Alternator
- New Attractive Universal Design
- Significant Durability and Reliability

**IQ3200CX / IQ3900CX / IQ5300CX**

**IQ7600CX / IQ8500CX**

## FEATURES

### IQ OHV 4-Stroke Engine

Provides high power, outstanding fuel economy.

Duel consumption is nearly 30% less than compared to side - valve engines.

### Automatic Voltage Regulator(AVR)

IQ AVR smooths power output fluctuations to enable operation of sensitive electronic equipment.

### 10% to 25% Increased output Power compared to DX series.

Rated output power has been increased from 10% to 25% compared to the DX series. This power is provided by the newly designed Sawafuji square core alternator.

### Large fuel tank

17 Liter fuel tank for IQ3200CX, 3900CX and newly developed 25 liter fuel tank for upper model stretch exceptionally long operating hours

### Newly Designed Control Panels

Not only a new and attractive design, safety and water resistance are also improved.

### IQ 3900CX featuring IQ200

IQ3900CX is newly added to the IQ series in power out-put between IQ3200CX and IQ5300CX, one of the most well balanced models on price and performance.

### Improved frame design

Welded upper bar widened diameter of the frame, significantly improves the image of the machine from rough handling and damage.
