

# **IQ**® EVAPORATIVE AIR COOLER

## **EVAPORATIVE AIR COOLER**

Evaporative Air Cooler has a good ability in ventilation, low pressure, large amount of wind, high dust holding, and good efficiency

### **HIGH COOLING EFFICIENCY WITH ICE**

Put ice cube or small ice box in the top tank for good cooling efficiency.

### **REMOTE CONTROLLER**

Infrared remote-controller, easy to operate.

**REAR WATER INLET**  
Put water into water tank from rear inlet.

### **SIDE WATER HOSE JOINT**

Connect a water hose to the joint to add water, and control the water by a float valve in the tank flexibly.
